

Name:
Adams
English 5, Period: _____
November 06, 2013

# Technoromantic

Exceeds 100%	Meets 85%	Approaches 70%	Falls Far Below REVISE	<b>×3</b>
<b>Deadline:</b> This will be collected at the end of class TODAY!				

As you know, the Romanticists were very enthusiastic about nature and individualism. In today's world, technology exists that could either assist (e.g. GPS helps us navigate and experience nature in a safer way) or hinder (e.g. you can't enjoy your individuality and the world around you if you're constantly responding to texts or wall posts) that viewpoint.

How do people in the year 2013 experience nature and individuality differently than our forebears in the 1800s? How do you feel about technology and its impact on your daily life? Could you go without technology for three months?

	Good spelling and grammar (≤5 errors)
	Discuss how technology could be useful to Romanticists and your opinion of the advantages of a technologically advanced society
	Discuss how technology would be detrimental to Romanticists and your opinion on the drawbacks of a technologically advanced society
NO CREDIT	Required information is in the upper left corner of the paper in the proper format, font is easily read, and at least 200 words in length
BONUS CREDIT	Cites one relevant trusted resource in MLA format (you don't need a separate Works Cited page for this assignment)
BONUS CREDIT	Find some way to reference Wolfram in a manner that is both factually accurate and also relevant
